Frequently Asked Questions Regarding The EBPA Benefits Card

Q: What is the advantage of using the EBPA Benefits Card?

When you use the EBPA Benefits Card, you no longer need to pay out-of-pocket and wait for a reimbursement. However, claims may need to be substantiated and therefore, all receipts should be retained.

Q: How do I activate my EBPA Benefits Card?

The first time you use your card, it will be automatically activated. You should choose credit not debit at the card terminal. There is no pin number associated with the card.

Q: Can the Benefits Card be used for medical, dental, hospital, and vision expenses?

Yes, the Benefits Card can be used for these expenses. If the transaction amount does not match your employer’s benefit plan co-payments, the system will allow the transaction and you will not have to pay out-of-pocket, but a letter will be sent to you requesting an itemized receipt.

Reminder: All medical, dental, hospital and vision claims should be submitted to your insurance carrier first for processing. The Benefits Card should only be used for the portion you are responsible for. You will be asked to substantiate these transactions. If the provider requires payment up-front, you will need to pay out-of-pocket. Once you receive the Explanation of Benefits (EOB) and/or an itemized bill from the doctor showing the insurance payment, you can submit a paper claim for reimbursement.

Q: Can the Benefits Card be used for over-the-counter expenses?

Yes, the card can be used for over-the-counter eligible expenses. These products are eligible if they are for “medical care.” “Medical care” is defined as those products that are for the diagnosis, cure, or treatment of a medical condition. (Please note the IRS will be revising the IRS eligible OTC list as of 1/1/2011)

Eligible over-the-counter items are auto-substantiated at vendors through a process called the “Inventory Information Approval System” (IIAS). The IIAS is the retailer’s point of sale system which identifies eligible healthcare FSA purchases by comparing the inventory control information (e.g., UPC or SKU number) for the items being purchased against a pre-established list of eligible medical expenses. The list is restricted to “eligible medical expenses” as described in Sections 213(d) of the IRS code (including non-prescription items). The eligible medical expenses are totaled and sent to EBPA’s card system which approves the payment and no receipts for these approved items will be requested. A link to an updated list of
IIAS merchants can be found on your employer’s FSA Information Network Page directly below the Login link.

For a list of eligible over-the-counter expenses, visit www.ebpabenefits.com, or if you have questions, please feel free to call EBPA’s customer service unit at 1-888-678-3457. Remember to save your receipts in case they are required.

Q: Do I choose debit or credit at the card terminal when I use my card?

You should choose credit. There is no pin number associated with the card.

Q: What happens if there is not enough money in my account to pay the full cost of the service?

The transaction will be denied. You will have to pay for the product or service and submit the itemized bill/receipt, along with a claim form.

Q: If I use my card for doctor’s visits will I be asked to submit a receipt?

You will not be asked for a receipt if the transaction amount matches your employer’s benefit plan office visit co-payment. If the transaction amount is a different amount such as the co-payment of a spouse’s plan that does not match your employer’s co-payment, the system will allow the transaction and you will not have to pay out-of-pocket. However, a letter will be generated and sent to you requesting substantiation.

Q: If I use my card for a Prescription will I be asked for a receipt?

You will not be asked for a receipt if the pharmacy has the Inventory Information Approval System (IIAS) as noted above for over-the-counter purchases. The IIAS system will automatically approve all prescriptions and you will not be asked for a receipt.

The IRS has ruled that the Benefits Card can only be used at pharmacies that have the IIAS system in place. You will be able to purchase prescriptions at pharmacies that do not have this system, however, you will need to pay for the prescription and submit a paper claim for reimbursement.

Q: What are the options for submitting orthodontic expenses to EBPA for reimbursement under a Health Care Reimbursement Account?

On a monthly payment plan, once the card is used for the first payment, a letter will be generated requiring you to substantiate the transaction. When you send the substantiation, you can indicate that this is a recurring transaction by noting “Recurring Expense” on the Substantiation Request Letter. Once we receive this information, we can program the system to automatically approve the monthly transaction.

If the Orthodontic service is billed for the year, you may use the Benefits Card, but you will be asked to substantiate. You can also file a paper claim for reimbursement with the Explanation of Benefits (EOB) as your itemized receipt.
Q: Do I have to use the Benefits Card?

No, you do not have to use the Benefits card. The Benefits Card is provided as a convenience. If you choose not to use the Benefits Card, you may send in a paper claim form with the proper documentation for reimbursement.

Q: Does my online FSA account information display both paper claim submissions and Benefits Card claims?

Yes, when you go online to view your personal account activity, paper claim transactions will be listed as “MANUAL” and Benefits Card transactions will be listed as “CARD.”

Q: Do I still need to save receipts?

Yes, you must save itemized receipts for all FSA purchases. You may be asked to submit receipts to verify that all expenses comply with IRS guidelines.

Q: Do I need a new Benefits Card each year?

No. The Benefits Card is valid for three years from date of issue as long as you remain part of your employer’s benefit plan and elect FSA each year. The Benefits Card will be loaded with your new annual election amount at the beginning of each plan year for Health Care and incrementally with each pay period for Dependent Care. The expiration date is three years from date of issue.

Q: Can the Benefits Card be used for Dependent Care expenses?

Yes, the Benefits Card can be used for Dependent Care expenses if the provider accepts credit cards.

Q: If I terminate, when will the Benefits Card be deactivated? Can claims still be submitted for eligible expenses prior to termination?

The Benefits Card is deactivated the date of termination. Paper claims can still be submitted for eligible expenses incurred prior to the termination date.

Q: If I go to a drug store or grocery store and purchase over-the-counter items as well as a half gallon of milk and a loaf of bread, do I have to separate the purchases?

Although it is not necessary to separate the purchases, it is recommended.

Q: If I have a question regarding my Benefits Card or account, who do I call?

You should contact EBPA’s FSA Customer Service Department at 1-888-678-3457.
