Would a trip to the hospital leave your finances in serious condition?

Hospital indemnity insurance from Unum can help.

**Frank’s story**
Frank works hard to pay for the things that matter to him and his family. So when his appendix ruptured, he worried what it would mean to his finances.
His recovery kept him in the hospital for a few days, but Frank’s hospital indemnity coverage protected his savings. A lump-sum benefit helped Frank with the unexpected costs — so he could get back to work with fewer worries.

**Key advantage**
This plan pays a benefit when you are admitted to the hospital for a covered hospital stay. Depending on the plan your employer chooses, it may also pay a benefit if you receive additional treatment for a covered accident or sickness.

**How can hospital indemnity insurance help?**
This coverage can complement your health insurance to help you pay for the costs associated with a hospital stay. It can also provide funds that can be used to help pay the out-of-pocket expenses your medical plan may not cover, such as co-insurance, co-pays and deductibles.

**An illustrative example of how hospital indemnity insurance could help you with your expenses**

**30-year-old claimant**
- **Condition:** Ruptured appendix resulting in a 5-day hospital stay

**Out-of-pocket expenses incurred:**
- $500 deductible
- $2,000 co-insurance for 5-day hospital stay ($10,000 x 20%)

**Total out-of-pocket expenses:** $2,500

**Benefits paid:**
- $1,500 hospital admission benefit
- $500 daily hospital confinement benefit ($100 x 5 days)

**Total benefit paid under policy:** $2,000

-Costs of treatment and benefit amounts may vary. Benefits paid are based on the plan design chosen by your employer.

**Who’s at risk?**
- More than 1 in 5 adults visited the ER at least once in 2010.
- The average facility price for a hospital stay was $15,674 in 2011 — a 13.1% increase from 2009.

**Two reasons to buy this coverage at work**
1. You get affordable rates when you buy this coverage through your employer, and the premiums are conveniently deducted from your paycheck.
2. Coverage becomes effective on the first day of the month in which payroll deductions begin.

**How to apply**
To learn more, watch for information from your employer.
Your employer has selected a specific benefit amount to complement your medical plan:

- $1,000 for each covered hospital admission (once per year)
- $100 for each day of your covered hospital stay, up to 15 days (once per year)
- $200 for each day you spend in intensive care, up to 15 days (once per year)
- $150 for emergency room treatment for an accident (once per year)
- $100 for ambulance or $500 for air ambulance transportation (once per year)
