

# CIGNA VALUE PRESCRIPTION DRUG LIST

## Three-Tier Plan

This document represents a list of the most commonly prescribed medications covered under your plan, in an easy-to-read format. If you do not see a specific medication on this list, please check [myCigna.com](http://myCigna.com) to see all of the medications covered under your plan.

Choosing the medication that is right for you is between you and your doctor. Every medication available on Cigna's prescription drug list has been approved by the U.S. Food and Drug Administration (FDA). If there is more than one medication appropriate for your condition, we encourage you to talk to your doctor about low cost medications like generics and preferred brands, as they will help to manage your prescription costs.

### Your three-tier prescription drug list

**A three-tier prescription drug list splits medications into three categories (or tiers):**

**1st Tier - Generic Medications** have the same strength and active ingredients as the brand name - but often cost much less. You will usually pay less for generic medications under a three-tier plan. If one's available, you should consider switching to a generic to treat your condition.

**2nd Tier - Preferred Brand Medications** will usually cost more than a generic, but may cost less than a non-preferred brand medication on a three-tier plan.

**3rd Tier - Non-Preferred Brand Medications** generally have generic alternatives and/or one or more preferred brand options within the same drug class. You will usually pay more for non-preferred medications on a three-tier plan.

### Understanding Cigna's prescription drug list

Every year Cigna updates this drug list to reflect any changes to the list of covered prescription drugs. Examples of changes that may impact you include brand name medications may change tiers or may no longer be covered. In addition, any new FDA approved drug product (including but not limited to medications, medical supplies or devices that are covered under standard pharmacy benefit plans) available in the marketplace may not be covered<sup>^</sup> for the first six months after the product receives FDA new drug approval.

Use the Prescription Drug Price Quote tool on [myCigna.com](http://myCigna.com) to price a medication and see the lower cost options available to you at your selected retail pharmacy and Cigna Home Delivery Pharmacy. *Please note: this list is subject to change.*

<sup>^</sup> If your doctor feels currently covered medications aren't right for you, he or she can ask Cigna to consider authorizing coverage of your medication.

**Together, all the way.®**

Offered by: Cigna Health and Life Insurance Company, Connecticut General Life Insurance Company, or their affiliates.

## The symbols on the list mean

If a medication on the list has one of the following symbols, your doctor may have to get an authorization (approval) for coverage of that medication.

**PA:** **Prior Authorization** may be required for different reasons. To learn the requirements needed for coverage of a specific medication, feel free to give us a call.

**QL:** **Quantity Limit** means you may have coverage for a limited amount of a specific medication.

**AGE:** **Age Requirement** means that a person must be within a specific age group for a specific medication to be covered.

**ST:** **Step Therapy** is a prior authorization program that requires you to try other medications available to treat the same condition before the medication with the “ST” is covered.

**GEN:** **Gender** means this medication is only covered if you meet specific gender requirements.

\* Medications marked with an asterisk are considered to be specialty medications. Some plans may cover specialty medications at different benefit levels or may require the use of a preferred specialty pharmacy. Refer to your plan documents for more information.

## myCigna.com

Our customer website can help you manage your prescription coverage:

When you visit **myCigna.com** you can:

- › Look up the details of your specific pharmacy plan
- › View your drug list to research thousands of available medications
- › Compare medication prices using the Prescription Drug Price Quote tool
- › Ask a pharmacist questions
- › And much, much, more!

## Cigna Home Delivery Pharmacy

Cigna Home Delivery Pharmacy<sup>SM</sup> is a convenient mail order service for those who take medications regularly. We offer:

- › Routine, maintenance medications and specialty medications
- › Licensed pharmacists available to help answer questions, 24/7
- › Up to a 90-day supply of your medications
- › Free, standard shipping right to your home
- › Refill reminder service

To get started, give us a call at **800.835.3784**. For more information, visit the Cigna Home Delivery Pharmacy page on **myCigna.com**.

## Health care reform and you

The Patient Protection and Affordable Care Act (PPACA), commonly referred to as “health care reform,” was signed into law on March 23, 2010. Certain Preventive Medications (including some over the counter medications) may be available to you at no cost sharing. To get the most current information, visit **www.informedonreform.com** or **Cigna.com** and look for the Preventive Services section within the “Informed on Reform” link.

## If you have any questions

Please call **855.881.7925**. We’re here to help.

Save time with the convenience of Cigna Home Delivery Pharmacy

potassium citrate ER		Procysbi* (PA)
tamsulosin		Rapaflo
terazosin		Thiola
tolterodine		Toviaz (ST)
tolterodine ER		Urocit-K
		VESIcare (ST)

\* Medications marked with an asterisk are considered to be specialty medications. Some plans may cover specialty medications at different benefit levels or may require the use of a preferred specialty pharmacy. Refer to your plan documents for more information.

# EXCLUSIONS AND LIMITATIONS

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and be medically necessary. If your plan provides coverage for certain preventive prescription drugs with no cost-share, covered employees may be required to use an in-network pharmacy to fill the prescription. If employees use a pharmacy that does not participate in your plan's network, the prescription may not be covered. Certain drugs may require prior authorization, or be subject to step therapy, quantity limits or other utilization management requirements.

Plans generally do not provide coverage for the following under the pharmacy benefit, except as required by state or federal law, or by the terms of your specific plan:<sup>1</sup>

- › over-the-counter (OTC) medications (medications that do not require a prescription) except insulin unless state or federal law requires coverage of such drugs;
- › prescription drugs or supplies for which there is a non-prescription or OTC therapeutic alternative;
- › physician-administered injectable medications covered under the Plan's medical benefit, unless otherwise covered under the plan's prescription drug list or authorized by Cigna;
- › implantable contraceptive devices covered under the Plan's medical benefit;
- › medications that are not medically necessary;
- › experimental or investigational medications, including FDA-approved drugs used for purposes other than those approved by the FDA unless the drug is recognized for the treatment of the particular indication;
- › medications that are not approved by the Food & Drug Administration (FDA);
- › prescription and non-prescription devices, supplies, and appliances other than those supplies specifically listed as covered;
- › medications used for cosmetic purposes or athletic enhancement;
- › prescription vitamins (other than prenatal vitamins) or dietary supplements unless state or federal law requires coverage of such drugs;
- › immunization agents, biological products for allergy immunization, biological sera, blood, blood plasma and other blood products or fractions and medications used for travel prophylaxis;
- › replacement of prescription drugs and related supplies due to loss or theft;
- › drugs which are to be taken by or administered to a covered person while they are a patient in a licensed hospital, skilled nursing facility, rest home or similar institution which operates on its premises or allows to be operated on its premises a facility for dispensing pharmaceuticals;
- › prescriptions more than one year from the date of issue; or

In addition to the plan's standard pharmacy exclusions, certain new FDA-approved drug products (including but not limited to medications, medical supplies or devices that are covered under standard pharmacy benefit plans) may not be covered for the first six months of market availability unless authorized by Cigna as medically necessary.

<sup>1</sup> Costs and complete details of the plan's prescription drug coverage are set forth in the plan documents. If there are any differences between the information provided here and the plan documents, the information in the plan documents takes complete precedence.

In accordance with Texas and Louisiana state law, customers with affected benefit plans who receive coverage for medications that are removed from the prescription drug list during the plan year will continue to have those medications covered at the same benefit level until their plan renewal date. To find out if these state mandates apply to your plan, please call Customer Service.

**Cigna reserves the right to make changes to the Drug List without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.**
