Students who are not already in compliance in the UMS PointnClick tool may have a registration hold placed on their account which prevents additional enrollment/changes to registration. Click on the button below for detailed registration hold instructions.

- This Registration Hold will be removed when the student comes into compliance in the PointnClick tool.
- For Fall 2022, the compliance due date will be in early October.
- To determine students’ On Campus (In Person) or remote instruction status, the Instruction Modes for the student's courses can be used. UM\nS Instruction Modes Documentation outlines the various Instruction Modes and their use cases.
