

# Release 1.1

**Release Date: November 12, 2013**

This first release after the upgrade contains a number of bug fixes, as well as some speed and security enhancements.

Major fixed bugs include:

- Webforms (missing 'other' option, email subject problem, un-editable components)
- **News Items (Teaser Image not updatable)**
- Publications content missing from Muskie & Cutler Faculty and Staff Pages
- **Athletics events (display and update issues)**
- Library Databases (glossary filter issue)
- Alert when trying to move to new page without saving edited content - 1983

## **Bonus item**

To make it easier to get answers while you're working, we added a link to this online manual within the Admin Tools section of the CMS.
