- PS2
- PS2 Slim
- PS3
- PlayStation 4
  - Related articles

PS2

1. *Load* the Start-up CD in your PS2.
2. Make sure you have the network cable disconnected.
3. Walk through the Start-Up CD until it starts testing your connection. Since we disconnected the network cable the test will fail.
4. You can now *press* the *select* button which will display the MAC.
5. The 12-digit number is the MAC address of your PS2.
6. Now that you have recorded your PS2 MAC Address you can go to Device Registration, to register your device on the Network.

PS2 Slim

1. With no disks inserted, turn on the PS2 Slim.
2. After the "Browser/System Configuration" options appear on the screen, *push* the Triangle button on the PS2 controller.
3. On the bottom of the Version screen, you'll see the MAC address of the PS2 Slim.
4. Now that you have recorded your PS2 Slim MAC Address you can go to Device Registration, to register your device on the Network.

PS3

1. *Turn on* the PlayStation 3 without any disc in the drive.
2. Once the PlayStation 3 has booted up, *select* Settings.
3. *Select* System Settings and *press* the X button.
4. *Scroll* until you see System Information and *press* the X button.
5. You will see your MAC address listed.
6. Now that you have recorded your PS3 MAC Address you can go to Device Registration, to register your device on the Network.

Playstation 4

Playstation 4 systems are able to access internet access via a wired/wireless connection.

Before trying to setup your device for a wired connection, ensure that you have an ethernet cord connecting your Playstation 4 to the data port located in your dorm room.

Registration

1. Turn on your Playstation 4 without any disk in the drive and wait for the menu to pop up.
2. Navigate to the "Settings" icon (located on the far left).
1. Select the "System" icon under the Settings menu.

1. Select "System Information."
1. You will see your MAC address listed on this screen, containing letters and numbers in the format xx.xx.xx.xx.xx.xx. Write down your MAC address (LAN cable).

Now that you have recorded your PlayStation 4 MAC Address (LAN Cable) you can go to Device Registration, to register your device on the Network.

1. Select **Settings**.

2. Select **System Settings**.

3. Select **System Information** and your MAC Address will be displayed on the screen.
