Zoom

Zoom at the University of Maine System

Zoom is a web conferencing tool available to all University of Maine System students, faculty, and staff. Zoom provides high-quality audio and video, intuitive sharing and co-annotation tools, breakout rooms, white-boarding tools, the ability to easily add content to a meeting on the fly, and the option to download meeting recordings as MP4 files. Zoom has apps for all platforms, including fully featured iOS and Android apps. Students, faculty and staff of the UMS have access to Zoom Pro accounts with their @maine.edu username and password. You can access Zoom by going to maine.zoom.us or by using the LaunchPad Zoom icon in the myCampus Portal. Zoom is also integrated with Blackboard and Kaltura.

To get started, there are a variety of materials available to you:

- UMS Zoom Resources & Support: https://gojira.its.maine.edu/confluence/pages/viewpage.action?pageId=63681987
- UMS Academy contains training videos for Zoom and can be found on the myCampus Launchpad and then searching for “Zoom Training”
- Zoom also has a wealth of documentation that is regularly updated: https://support.zoom.us
