## Updating Zoom Client on Windows and MacOS

### Windows

**How to Update Zoom (Windows)**

On a UAD (University owned) computer, open up Software Center and search for Zoom. Software Center in accessible through the Start Menu under University Applications and is also in a tile in the lower right when the Start menu first opens.

<table>
<thead>
<tr>
<th>Recently added</th>

</thead>
<tbody>
<tr>
<td>3D Viewer</td>
</tr>
<tr>
<td>7-Zip</td>
</tr>
</tbody>
</table>

**Browsers**

- Microsoft Edge
- Google Chrome
- Firefox
- Internet Explorer

**Office 2016**

- Word 2016
- Excel 2016
- PowerPoint 2016
- Publisher 2016

**University Applications**

- Software Center

Click on Zoom Desktop Client 4.6.9 (or latest version available). Then click Install.
MacOS

On a University owned (JAMF-enrolled) Mac, open the UMS Application Catalog, search for Zoom. Click Install button under Zoom web Conferencing.
Updates are generally automatically installed about 7 days after release automatically, although may be within 2-3 days for important security updates.

If users need to use a Google account other than their normal UMS Gmail account (i.e. hippa account) and for some reason they are not seeing the option to login with Google, then install Enable Zoom Google Auth from the UMS Application Catalog.
