What Can I Do to Prevent Zoombombing?

What is Zoombombing?
A new form of trolling in which a participant uses Zoom’s screen sharing feature to interrupt and disrupt meetings and classes.

<table>
<thead>
<tr>
<th>Restrict Access</th>
<th>Enable a Waiting Room</th>
<th>Control Your Meeting</th>
</tr>
</thead>
</table>
| Set Up Password requires a participant to enter a password to enter the Zoom Session. | The Waiting Room feature enables you will be able to control who and when a participant is admitting into the Zoom session.  
- *NEW Instructions to Enable a Waiting Room to a meeting in progress  
- Instructions to Enable a Waiting Room | You have the ability to remove and manage participants during your Zoom session through Manage Participants icon.  
- *NEW Instructions for Managing Participants through the Security button  
- Instructions for Managing Participants  
- Zoom Video on Managing Participants |

Note: Meetings have been set to Require a Password as of April 9, 2020

*NEW Information about the new Zoom Meeting Passwords setting

Additional Instructions about Zoom Meeting Passwords
- Instructions to Set Up Password  
- Instructions for adding a Password for an existing meeting

Update Zoom
Zoom has been updating their application in response to Zoombombing and other security flaws. Below are instructions to do so.
- Instructions for non-University managed computers and mobile devices

If your machine is University owned and managed you may need to use the below instructions to update your machine.
- Instructions for University managed computers that require your maine.edu user name and password
