

Exporting tests/quizzes/exams in Blackboard to a different course

How do I move a test (exam) from one Blackboard Course to another?

1. From the originating course, go to **Control panel -> Course Tools -> Tests, Surveys, and Pools**
2. Click on **Tests**
3. Find the test (or quiz) in question and click the dropdown arrow. Choose **"Export"**

4. This will give you a .zip file you can upload in your new course.
5. Go to **Control panel -> Course Tools -> Tests, Surveys, and Pools** in the current semester's course and click on Tests
6. Click **Import** and choose the file downloaded from the other course
