# What Can I Do to Prevent Zoombombing?

## What is Zoombombing?
A new form of trolling in which a participant uses Zoom's screen sharing feature to interrupt and disrupt meetings and classes.

### Restrict Access
Set Up Password requires a participant to enter a passcode to enter the Zoom Session.

Note: Meetings have been set to Require a Passcode as of April 9, 2020

- [Information about Zoom Meeting Passcodes setting](#)

### Enable a Waiting Room
The Waiting Room feature enables you will be able to control who and when a participant is admitting into the Zoom session.

### Update the Zoom Client
Zoom has been updating their application in response to Zoombombing and other security flaws. Below are instructions to do so.

- [Instructions for non-University managed computers and mobile devices](#)

If your device is University owned and managed you may need to use the below instructions to update your machine.
