How can I view my class schedule?

From Student Center Dashboard, a quick way to view your schedule is by using the Class Schedule widget. Select the Academics tab on the Dashboard to view your weekly schedule by day of the week.

For a more detailed look at your schedule, you can click on the Class Schedule widget or select Schedule from the left-hand navigation. You can then view your schedule in four different formats: Day, Week, Month, and List. In any of the views, you can see more detail about a particular course by clicking on it.
