Salaried/Faculty Retirement Plans

New Option: Roth 403(b) and 457(b); available September 4th, 2018.

- For more information: Roth Flyer
- MaineStreet Guide: Voluntary Deductions

Enrollment in the faculty/salaried retirement program is mandatory/non-elective for eligible faculty and salaried employees age 30 and older (voluntary/elective prior to age 30). The University contributes an amount equal to 10% of the employee’s base salary, and the employee contributes 4% of base salary. Part-time employees are generally ineligible for UMS Matching Contributions.

There is a five year vesting period for the University's retirement contributions to this plan for salaried (excluding faculty) employees hired on or after January 1, 2010.

NCRP Notice to Interested Parties

The program is mandatory for eligible hourly-paid (biweekly-paid) employees hired on and after July 1, 1998. Employees must contribute 1% of their base salary. In addition, employees can voluntarily contribute up to an additional 3% of their base salary. The University matches these contributions dollar for dollar up to a maximum of 4% of the employee’s base salary. Part-time employees are generally ineligible for UMS Matching Contributions.

There is a vesting period for the University's retirement contributions to this plan.

- New participants between January 1, 2010 and December 31, 2012 will have a four-year vesting period
- New participants on or after January 1, 2013 will have a five-year vesting period

After an hourly employee has completed four years of service, the University of Maine System will provide an additional contribution to the plan equal to 6% of the employee’s base salary.

**403(b) vs. 457(b)**

How does the 457(b) plan differ from other tax-deferred options currently offered through the University of Maine System 403(b) plan? Although both plans operate similarly regarding the ability to tax-defer retirement contributions, there are some differences. First, EGTRRA permits you to tax-defer under both the 403(b) and 457(b) plans at the same time. This means that you can contribute the annual maximum to each plan, thus doubling the amount that you can tax-defer during the calendar year. Second, the 457(b) plan does not contain the early retirement withdrawal penalty applicable to the 403(b) plan for someone who separates from employment under age 59 1/2 and wishes to withdraw their accumulation. Finally, the 457(b) plan might work better for someone who wants to contribute substantially more as s/he nears retirement, because of the more generous catch-up provisions.
Your basic retirement plan contributions and the corresponding University matching contributions MUST continue to be directed to the 403(b) plan – they may not be directed to the 457(b) plan. Only voluntary sheltered contributions above your basic retirement plan contributions may be directed to the 457(b) plan.

The 457(b) plan is a tax-deferred plan that functions much like the 403(b) tax-deferred plan -- it provides an opportunity to set retirement monies aside that are deferred for federal and state taxes. All University employees who are eligible to shelter under the 403(b) plan will also be eligible to also shelter under the 457(b) plan. EGTRRA permits you to participate in both the 403(b) and 457(b) plans up to the calendar year maximums for each plan.

For calendar 2020, the 457(b) maximum is the lesser of 100% of pay or $19,000; if you are age 50, you are eligible for an additional $6,000 catch-up, for a total of $25,000.

For calendar 2019, the 457(b) maximum is the lesser of 100% of pay or $19,000; if you are age 50, you are eligible for an additional $6,000 catch-up, for a total of $25,000.

When an employee leaves University employment, the 457(b) plan will have the same cash-out/transfer provisions as the 403(b) plan and applicable in-service hardship withdrawal provisions, subject to IRS guidelines.
